Chairman Communique

An Institution or Organization can progress with perfect planning in a healthy and systematic way. It can happen when the details of execution are planned well in advance. In the process, taking note of past experience will help. By this, mistakes can be rectified. If crowned with success, planning for further growth can be done.

“DISHA” was brought into existence for this purpose. It proved to be of utmost utility for the Society and its Institutions in particular to record systematic, sustainable and healthy growth. The result is that the fruits of development are being felt not only by the students of the Institutions but also those belonging to other Institutions. Slowly, the campus is turning out to be a model for others to emulate. Continuous efforts in this direction would certainly become useful as a small contribution towards nation building. Let us hope that everyone associated with this Institution would work with same amount of enthusiasm and dedication.

In today's technology driven world, entertainment and motivation which promote new ideas through Disha is laudable. I congratulate the team which is making this possible. Using words creatively enhances thought and happiness. It helps in channelizing our lives to the right path. Writers are therefore considered as path breakers in the society. Disha, also means a Path. If Disha (path) is correct our Destiny also changes for good. A person travelling in the right path always reaches higher position in life. Training your heart to think in a new way is easily possible in younger days. Creative writing helps you to think in innovative ways. I hope

that Disha which is enabling the young minds to enhance their thoughts and creativity will celebrate many more spring times.

Principal's Desk -

Shri. Sai Charan Srivastava our esteemed young dynamic principal of Corporate Commerce College is a man with vision. Having more than decade of experience in K12 segment nurturing the students with his ideology Improving the infrastructure, student – centred learning, making learning a pleasurable experience are all what he firmly believes in. He is the man who is at the helm of affairs. Smart and suave, pleasant – natured, with a disarming smile, he handles all matters with firmness and tact. He has made the classrooms colourful and equipped them with less projectors and believes in encouraging the team spirit amongst the faculties.

Discipline

People who are successful in life exert discipline every day. Although discipline is a concept that everyone knows about, very few truly understand what it means and its importance. A person who is disciplined follows the rules and behaves appropriately wherever they go. Can you imagine a world without any discipline? It's going to be a total chaos. Without discipline, we will not have great and inspiring leaders, award-winning actors and actresses, successful businessmen, and we won't be able to raise well-mannered kids to make a difference today and in the future. When we constantly practice restraint, we prevent arguments from happening. If we do not give into something we want right away, we strengthen ourselves as well. Discipline will help us make the right decisions in life regardless of the many temptations that we will encounter during the process. Discipline is the refining fire by which talent becomes ability

- Roy L. Smith

To enjoy good health, to bring true happiness to one's family, to bring peace to all, one must first discipline and control one's own mind. If a man can control his mind he can find the way to Enlightenment, and all wisdom and virtue will naturally come to him.
